Media Briefing Scheduled to Discuss the Russian River Wastewater Treatment Plant Irrigation Reliability and Beneficial Reuse Project

Santa Rosa, CA – The Sonoma County Water Agency (Agency) will host a media briefing on Wednesday, September 6, at 2:30 pm to discuss the preparation of an Environmental Impact Report (EIR) for the Russian River County Sanitation District's Russian River Wastewater Treatment Plant Irrigation Reliability and Beneficial Reuse Project.

The proposed Project would provide a flexible and reliable recycled water distribution system serving water users in the Russian River Valley and Green Valley areas. The proposed Project would consist of the construction, operation, and maintenance of recycled water pipelines; booster pump stations; storage tanks; associated appurtenances; and possibly energy recovery stations.

What to expect:

- Key project staff members will review the NOP and need for project.
- Staff will provide maps and visuals of the proposed project.
- Q&A with staff.

Date: Wednesday, September 6

Time: 2:30 p.m.

Location: T.B.D. (Contact Brad Sherwood for RSVP/Location)

RSVP/Media Credentials Required: In order to attend this briefing and receive credentials call Brad Sherwood at 707.521.6204. A public scoping meeting will be held at 4p.m. following this briefing for members of the public.
